Cost effectiveness

Cost-efficient implementation, market entry, growth and scale that improve operational agility, and boost your monetisation capabilities.

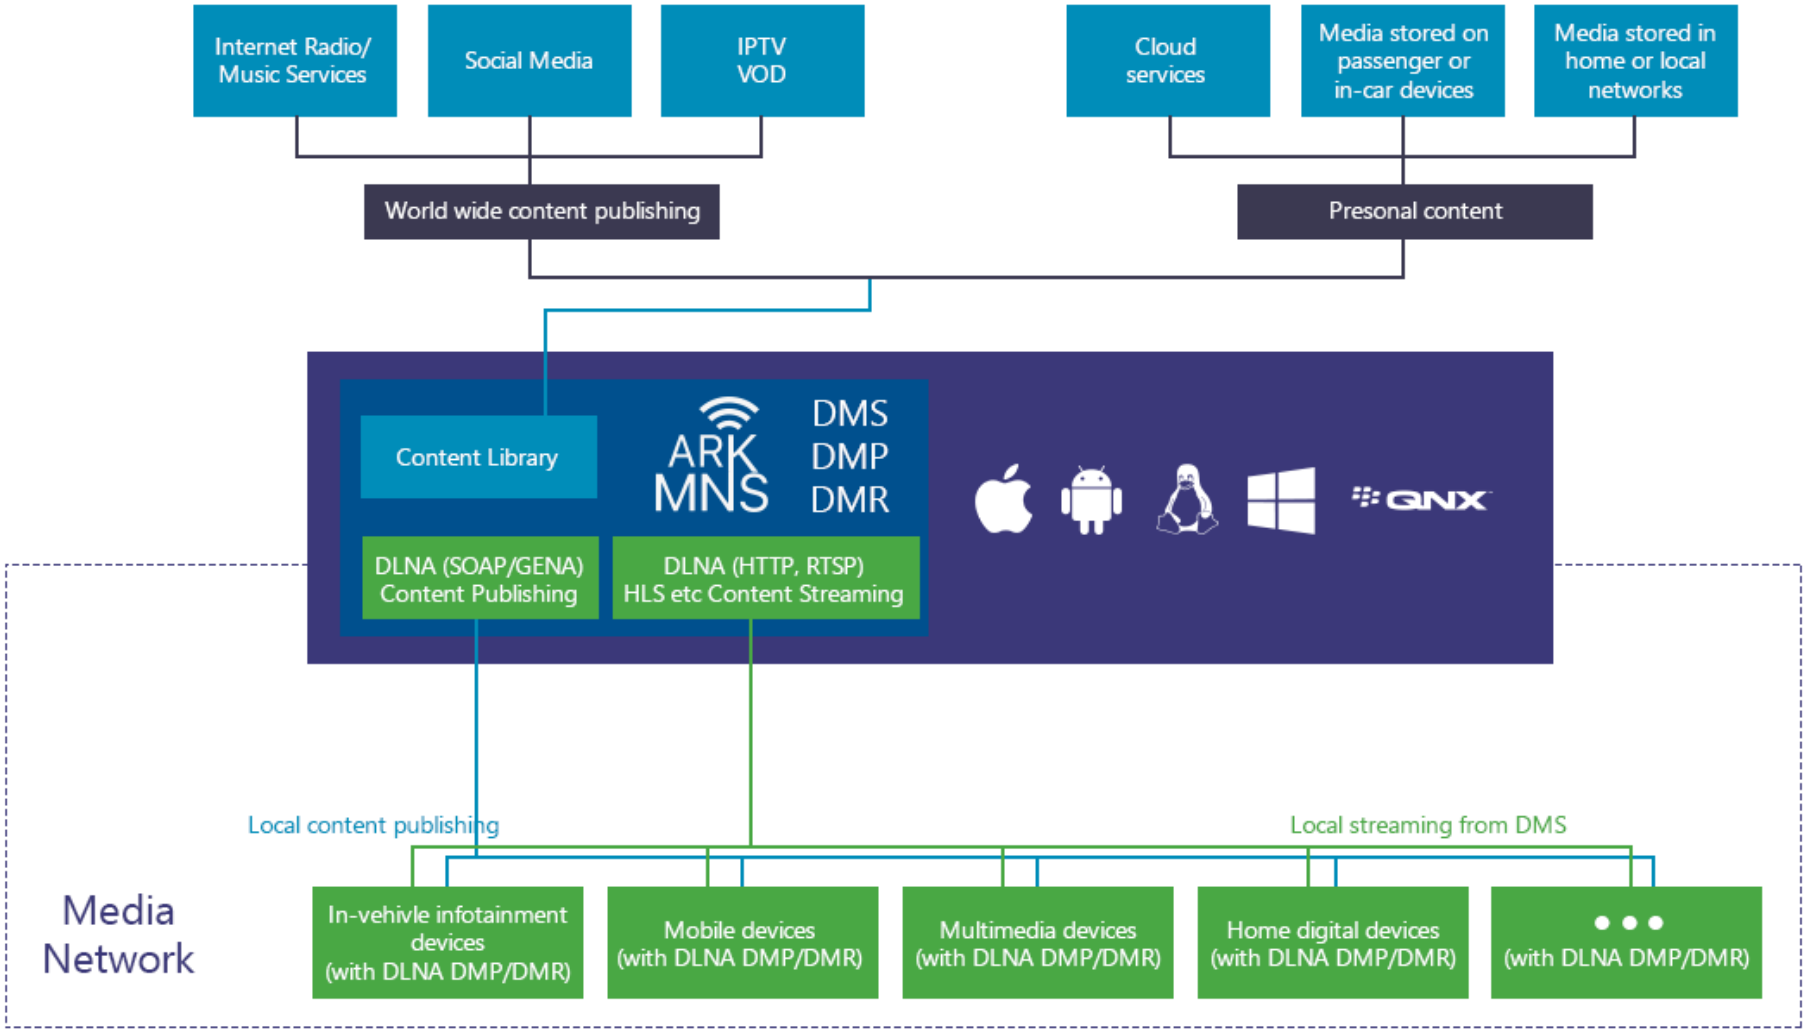
Market proven

Arkuda Digital has market proven apps in

App Store and Play Market

with more than **2M+** installs and **500K+** active users

Media network architecture



Media network API

Arkuda Digital extends Media Network API based on WAMP (Web Application Messaging Protocol).

With it you can plug-and-play any app components no matter on what languages they are written in.

Media Network API is based on microservice architecture.

Could be easily integrated into existing apps, or build UI on top of it in short terms, including browser based.

So, our approach fulfills all media network application communication needs.

Media network API
